For Bloemfontein Like a Cyclone Is Roberts.

Nothing More Than a Show of Resistance Expected.

United States May Appear as Mediator by Request-Then, Again, Nobody May.

London, March 13.-(4:20 p. m.)-Lord Notesta is making a very rapid advance and he is again misleading the Boers by ingium the advance southward instead of through the flat country due east of Assvogel Kop. He will probably seize the rallway south of Bloemfontein and although another battle is possible, it is more likely that the Boers are only endeavoring to delay his advance until the stores and troops from the Orange River district can be got away north.

Such confidence is now fell in the milt. tary operations that interest rather centers in the political aspects of the war.
The Daily News quotes Whitlaw Reid us saying in a private letter: "I give you hearty congratulations on the changed aspect of the war. It is an immense relief to us all us well as to you."

All the morning papers take the line that the government will decline to open negotiations with the Boer republics except upon the basis of complete su-render and will also make it perfectly clear that nothing in the shape of foreign inservention will be tolerated.

The Standard says: "There is an idea. In some quarters that on arriving at Electronicin, Lord Roberts will Issue a proclamation which will leave little doubt as to the future of the Republics."

The Times says: "President Kruger and President Stevn should have counted the cost before they made war. They played for a great stake and have lost. Washington, March 12 .- There is reaon to believe that the United States government is using its good offices to re-store peace between Great Britain and the South African republics. This has not taken the shape of a proffer of medation. That would be distinctively repug. nant to Great Britain and, according to the rule of international law, which has, without exception, governed the state department in the past, it will not volunear until it is known it will be acceptable to both parties to the war. It will serve the purpose to transmit an appeal for peace and the terms upon which peace can be secured. The United States has served in this capacity in the past, notably in the termination of the China-Japanese war, and it is in this way that all the rolling stock of the railroad and this government's good offices in this line are being extended. If this belief is well ing. founded, then Adelbert Hay, United States consul at Pretoria, has been the government, through the double inter-vention of the state department and Ambussador Choate, an application from Presidents Kruger and Steyn to be in-formed as to the terms upon which the war can be ended. Te facts in the case will be fully developed in a day or two. Lord Pauncefore called at the state department late in the afternoon and spent half an hour with Secretary Hay. If he was made acquainted with the tenor of any communication relative to peace that may have come from Pretoria yesterday he gave no sign of the fact. The officials of the department also maintained a reserve respecting this subject that was impenetrable and all that could be btained from them was an injunction to await the developments of the next 21 hours. It is surmised from this that the department is restrained from discuss-

San Juan, Puerto Rico, March 12.-The planters, merchants, and manufacturers of Puerto Rico mailed to congress yester day by the steamer Philadelphia a state ment in which they say: abmit to your earnest consideration the following views as to the financial policy of Puerto Rico. We note with regret the principle enunciated by certain speakers in thei ower house of congress, that a tariff between Puerto Rico and the United States is the proper method of raising revenues for this island. To this we are unchangeably opposed, for the following reasons: First, because taxation on our ports means an embargo on our foreign of our commerce with the United States would lock up our products here and prevent us from gaining our legitimate propartion of profit on our productions. We if forced to trade solely among ourselves. We must have a market other than Puer-Do not mistake the proposed 15 per cent of the Dingley rates for a reasonable rate. It is a fact that no class of goods produced here from leaf tobacco will be taxed less than 25 per cent ad valorem, while one of the most important of this class will be taxed 160 per cent ad valorem under the bill adopted by the hor of representatives. If this is not an embargo on our trade what can it be called, We earnestly ask for free trade, believing that with a mutual interchange of lucts between the two countries, the United States will be more than-gainer. The fact cannot be disputed that our people are in sore distress. We now ask as a right in equity that free trade with the United States be given us. We ask bread es a right from our mothers.
